

2010 Legacy

Love. It's what makes a Subaru, a Subaru.

Introducing the all-new 2010 **Subaru Legacy**.

When choosing what to drive, make sure
it's something that drives you.

A nighttime photograph of a city skyline viewed from a high vantage point, likely a cliff. A winding road curves through the foreground, and a red light trail from a car is visible on the left. The sky is a deep blue, and the city lights are visible in the distance.

Love the possibilities.

A new hobby. A new favorite drive. A new way to engage with life every day. Subaru vehicles are uniquely designed and equipped to get you out, to connect you to the road, and to inspire you to embrace more of life's opportunities. It all starts with the balance of Subaru Symmetrical All-Wheel Drive. Standard on every Subaru, it gives you the stability and control to drive where you want, when you want—always with the greatest confidence. That poise is matched with the reassurance of being protected by award-winning safety. It's why we hear again and again, "I love my Subaru."

Love. It's what makes a Subaru, a Subaru.

All wheels. All roads.

All the time.

By combining the balance and road adhesion of Subaru Symmetrical All-Wheel Drive with the stability of the SUBARU BOXER® engine, Subaru builds more than cars—we build confidence. Confidence that can help you enjoy getting there as much as being there. And it can help you feel the freedom to live more of the life you love.

Better grip to better perform.

Subaru Symmetrical All-Wheel Drive

In any driving environment, control of your vehicle comes from one place—where your tires meet the road. Rough or smooth. Curves or straight-aways. A sure grip of the road can give you the control to step around danger, and the engagement to find exhilaration in every strip of asphalt. Subaru has spent nearly 40 years developing a system for traction and control that employs an almost perfectly symmetrical layout to maximize power delivery to the wheels, and to create balance and stability that can heighten your enjoyment of every experience you have behind the wheel.

Better Balance

Every Subaru is built for AWD from the ground up. Each one features a longitudinally mounted engine that feeds power to the all-wheel drive system in a straight line. Which results in a balanced drivetrain with almost total side-to-side symmetry that is free of the extra components some other systems need to route power. This symmetry and balance means stability that helps make driving your Subaru safer and agility that makes it more fun.

Quicker Response

There are only four small patches of rubber that keep you in control of your vehicle. The more your tires are engaged, the more control you have. Subaru Symmetrical AWD keeps power routed to all four tires all the time, so it doesn't have to react to slippage that has already occurred. Rather, it keeps your tires as fully engaged with the road as possible.

Efficient Design

Because some systems lack the simplicity of Subaru Symmetrical AWD, they not only sacrifice efficiency, but also can incur more wear and tear. Subaru routes power directly from the engine to all four wheels to keep components—and frictional power losses—to a minimum. All while maximizing the seamless feeling of traction whenever you need it.

Learn more about the benefits of Subaru AWD.
subaru.com/awd

Horizontally Opposed Design

The pistons move in 180-degree opposition to each other on a horizontal plane, so each naturally cancels out the vibration of the piston opposite it.

Durable Design

The engine's flat design is inherently rigid, and reduces the amount of vibration that "V" or inline engines—with more upright pistons—are subjected to during operation.

Lower Center of Gravity

The flatter profile and perfectly symmetrical design of the engine block, and the fact that it sits lower in the chassis, make the overall vehicle more stably balanced and resistant to side-to-side motion than other designs.

Smoother Operation

Step on the accelerator and the revs come on smooth. While there's plenty of power when you need it, it never compromises your comfort or control.

Increased Reliability

An engine subjected to less vibration lasts longer. It's no wonder 94% of Subaru vehicles built in the last 10 years are still on the road today.¹

¹ Based on R. L. Polk & Co. registration data in the U.S. 1998 to 2008.

Greater Agility

The vehicle responds more quickly to changes in direction, which gives a feeling of tightness in turns. And it's less likely to become unstable during maneuvers, giving you an increased feeling of being in control at all times.

An engine that runs
on good ideas.

Subaru Boxer Engine

We think about engines a little differently. We believe an engine should deliver both power and control. That way, it performs as well in rush-hour traffic as it does on a winding road. That's why every Subaru is powered by the SUBARU BOXER® engine. Its horizontally opposed design and symmetrical layout provide powerful, yet smooth acceleration, but also give drivers balance and stability that set it apart from engines with a "V" or inline configuration. It's an insightful difference that has the power to make driving more engaging.

Find out more about
how our engine compares.
subaru.com/boxer-engine

My right foot's
new best friend.

How do you define performance?

Refined.

Thrilling.

Efficient.

Advanced.

3.6-liter 6-cylinder

A wealth of ultra-smooth power at the ready. That's the hallmark of the 3.6-liter 6-cylinder—the largest SUBARU BOXER® engine available. It produces 256 horsepower and 247 lb-ft of torque, moving the Legacy 3.6R models with effortless confidence over the road. This commanding engine is matched with the ease of a 5-speed automatic transmission, featuring SPORTSHIFT® technology and paddle shifters, which allow you to easily control shifting for more direct access to engine power.

Turbocharged 2.5GT

For those of you who desire the kind of lift in your day that only high performance can provide, the all-new Legacy 2.5GT is more ready than ever to oblige. It features an intercooler that's 25% larger than last year's—increasing the power this engine puts to the pavement. You'll now feel the turbocharged punch of 265 horsepower and 258 lb-ft of torque. And it's designed to respond to throttle input better than ever. A 6-speed manual transmission with new, performance-oriented gearing keeps you always in control of the action.

2.5-liter SUBARU BOXER

The all-new 2.5i offers more value than ever. This 4-cylinder engine generates 170 horsepower and 170 lb-ft of torque. Ample power for confident driving. Especially considering that, when paired with Lineartronic™ CVT (Continuously Variable Transmission), you can get 30 miles to the gallon¹. With the 18.5-gallon tank, you'll spend more time enjoying your getaways and less time filling up. What's more, every mile will be quieter and smoother than any previous Legacy.

Lineartronic™ CVT

Experience smooth performance and save money at the same time. Lineartronic™ CVT is an innovative technology that can reduce the amount you spend on fuel. Now available on Legacy 2.5i models, it eliminates the need to shift, thereby preserving momentum. And your engine always stays in its optimal rev range for maximum efficiency. In automatic mode, it infinitely adjusts the transmission to match your needs. Or use the paddle shifters and 6-speed manual mode for quick access to power and torque on the fly.

¹ Manufacturer highway estimate. Actual mileage may vary.

Bringing power and control
into balance.

Quick-ratio Steering

Front and Rear Stabilizer Bars

Double-wishbone Rear Suspension

Legacy 2.5i Limited in Satin White Pearl.

Dynamic Handling

Throw the all-new Legacy into a corner, and forget everything you think about driving a spacious sedan. Despite being significantly roomier than last year's, the all-new Legacy is more athletic than ever. Subaru Symmetrical All-Wheel Drive holds tight to every inch of asphalt—carving hairpins with predictability that makes the car feel like an extension of yourself. Its redesigned chassis features a stiffer sub-frame than last year's and the same lower center of gravity, making for exceptional stability. And it's gained less than 50 lbs, so it reacts to changes in direction quickly and effortlessly, which means you'll be pulling through s-curves with inspiring precision.

Responsive Suspension

Years of experience competing in the automotive acrobatics of rally racing have helped Subaru develop a suspension system that communicates with the driver. Its 4-wheel independent design maximizes the feel you have for the road. While the double-wishbone rear deflects the worst of the bumps without unsettling the chassis. With MacPherson struts up front, it's a tight, yet supple ride that always leaves you in touch and in control.

More space.
More focused than ever.

Legacy 3.6R Limited with Off-Black leather, optional moonroof and navigation system.

Bluetooth® Wireless Capability

| harman/kardon® Audio

| Voice-activated Navigation

As sharp as it
is comfortable.

Your Cabin

The interior of the all-new Legacy has been completely redesigned to give every passenger more room. Hip room in the front, legroom in the back, and headroom all around have seen generous enhancements for greater comfort. You'll also find features and design that make this space more purposeful and rewarding than ever. Opt for the 440-watt, 9-speaker harman/kardon premium audio system—with Bluetooth hands-free calling standard—and immerse yourself in your music with its stunning clarity. And with the newly available voice-activated navigation system, you can program destinations and find points of interest with spoken commands. This totally new nav system also features upgraded Bluetooth capability to include streaming audio.

This is how we show our love.

Building Cars That Last

Life is too important to slow down with a car you can't rely on. That's why we build each of our vehicles with the highest standards of manufacturing, with designs that are inherently tough, and with engineering that can keep you going—and keep you out there. This commitment is why 94% of all the vehicles we've built in the last 10 years are still on the road today.¹ And why a Subaru can keep its value, and stay out of a landfill longer.

¹ Based on R. L. Polk & Co. registration data in the U.S. 1998 to 2008.

Supporting Partners That Care

Subaru has spent decades building relationships with dozens of organizations that believe in building a cleaner, greener, healthier and more hopeful world as much as we do. That's why you'll see us offering our support at events like Dining Out for Life, or promoting responsible recreation with Leave No Trace. Our recent Share the Love sales event harnessed the generosity of Subaru owners to raise nearly five million dollars for deserving causes like the ASPCA and Habitat for Humanity.

Protecting Your Investment

Every Subaru comes with a 3-year or 36,000-mile warranty, which includes such generous benefits as 24-hour roadside assistance. Because your Subaru will be part of the family for a while to come, we want to protect it over the long haul. That's why we offer Subaru Added Security®—extended service agreements and maintenance plans that will help protect your car for up to 7 years or 100,000 miles. They're the only mechanical and maintenance plans backed by Subaru of America, Inc., and because we've been backing them for more than 25 years, they're agreements you can trust. Your dealer has full coverage details.

Ensuring You're Fully Covered

We know you love your Subaru, but sometimes accidents happen. Subaru Equity Shield™ GAP could help you avoid further sorrow by paying all or most of a possible difference between what your insurance company covers for your Subaru that was totaled, or stolen and not recovered, and what you still owe in payments. It will even cover your deductible for up to \$1,000. Also, being part of the Subaru family may save you money on some types of insurance, such as auto and homeowners. Subaru owners may be eligible for exclusive rates through Subaru Advantage Insurance by Liberty Mutual. Find out more at subaru.com.

Protected from every angle.

★★★★★
for front and side-impact collisions.¹
—National Highway Traffic Safety Administration

Subaru Active and Passive Safety

When it comes to feeling confident, nothing is more important than feeling safe. That’s why Subaru places safety as one of our highest priorities, and why we think about safety in 360 degrees. First, we engineer the Legacy with exceptional control and advanced accident-avoidance technologies to help keep accidents from happening in the first place. Then, we build it with protection technologies that have made it a Top Safety Pick,² 2006–2009. The end result is a car that—in a worst-case scenario—is one of your best possible bets.

Stopping Power

Powerful and reliable vented disc brakes are teamed with advanced technologies to help you stop short of danger. Antilock brakes help make sure you don’t lose traction, and the advanced Brake Assist system helps ensure maximum pressure is applied to the brakes as quickly as possible in an emergency situation.

Increased Awareness

Before you can avoid danger, you have to see it coming. The all-new Legacy is now available with the rear vision camera. This feature—standard with the navigation system—gives you a clear view of the area behind your vehicle, so you can always be in charge of your surroundings.

Exceptional Control

Safety begins with avoidance. The traction and balance of Subaru Symmetrical All-Wheel Drive and the stability of the SUBARU BOXER® engine provide you with the outstanding control you need to react to hazards. Every Legacy also comes standard with VDC electronic stability control, which can detect a loss of control and intervene to keep you on your intended path.

All-around Protection

Our Ring-shaped Reinforcement Frame is exceptionally strong for maximum resistance to impact energy, while its unique configuration helps divert that energy away from occupants. Also, front, front-side and side-curtain airbags³—standard on every Legacy—surround outboard occupants in the event of a crash to further help prevent injury.

¹ 2010 Legacy not yet tested. Government star ratings are part of the National Highway Traffic Safety Administration’s (NHTSA’s) New Car Assessment Program. Visit safercar.gov for more information.
² 2010 Legacy not yet tested. Ratings based on Insurance Institute for Highway Safety’s (IIHS’s) 40-mile-per-hour frontal crash test, 31-mile-per-hour side-impact test, and 20-mile-per-hour rear-impact test. For more information, contact IIHS or visit their website at www.iihs.org.
³ Always wear seatbelts. Children should be properly restrained in the rear seat.

Just one of those days?
Never.

What makes a Legacy, a Legacy.

Making the final decision to purchase a vehicle can be complex. That's why you'll find everything you'll need to know about being a Legacy owner at subaru.com. Not only will you find images of the Legacy and detailed information about it, but you'll also be able to check out special offers, ratings, reviews, and news about Subaru. We've also provided a wealth of interactive tools to help you decide if a Subaru is right for you.

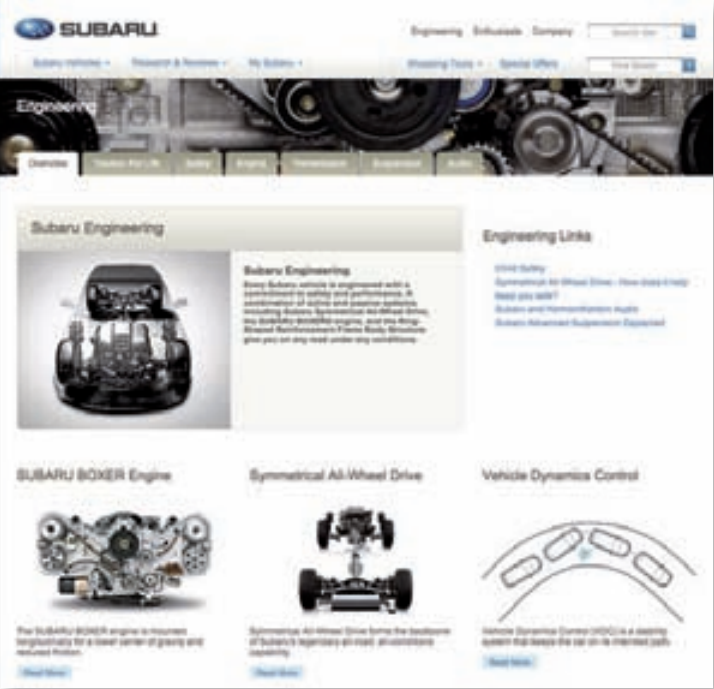

subaru.com/vehicles/legacy

Discover the Subaru difference.

What makes a car special is not always found on the surface. Go here to delve beneath the skin of the Legacy to find out what really makes it drive and complement your life so well.

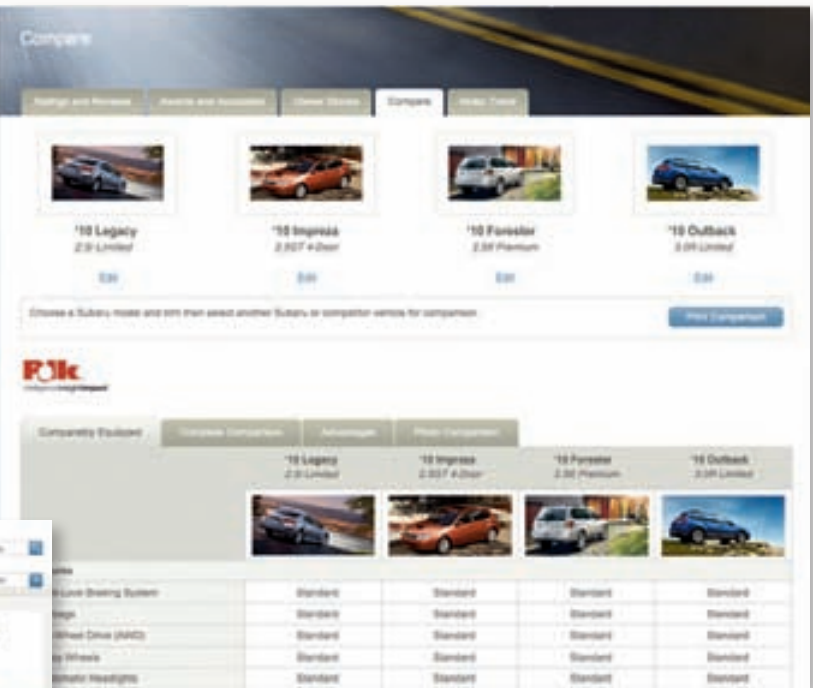

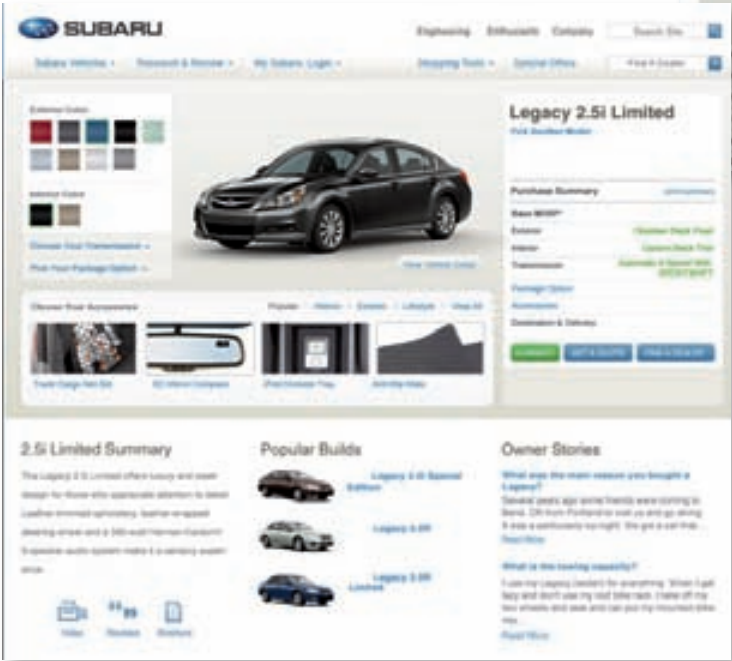

subaru.com/engineering

Configure your own.

With a wide variety of trim levels, colors and options to choose from, there is a Legacy for you. Use this tool, and within a few minutes you'll know exactly which Legacy that is.

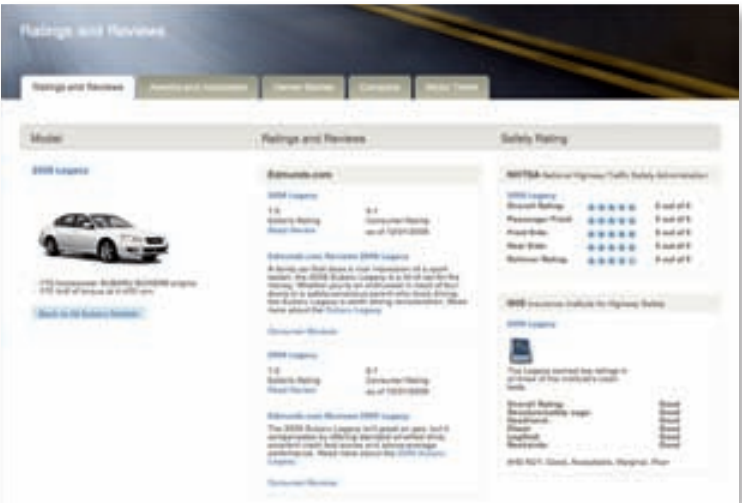

subaru.com/vehicles/build

Does it measure up?

Sometimes you need to see your choices side-by-side to really make a decision. Get in-depth information on the Legacy and how it compares to the competition in just about every category.

subaru.com/compare-vehicles

Need an expert opinion?

The Legacy has been tested, analyzed and put through its paces by some of the toughest critics in the automotive field. Find out what they thought about the driving experience the Legacy has to offer.

subaru.com/ratings-and-reviews

There's a Legacy for you.

Legacy Trim Levels

2.5i	Performance and value. A 170-horsepower engine gives you efficiency and low emissions. While a list of features, including VDC electronic stability control, auto-on headlights, and an electronic parking brake with hill holder help make driving safer and more convenient.	2.5GT Limited	Experience the thrill of the turbocharged SUBARU BOXER with the comfort of leather-trimmed seating and dual-zone automatic climate control. Not to mention the excitement provided by the harman/kardon premium audio system.
2.5i Premium	16-inch alloy wheels set the 2.5i Premium apart on the outside, while such amenities as the 10-way power driver's seat, a leather-wrapped steering wheel, and the powerful sounds of the available 9-speaker harman/kardon® premium audio system make being inside this Legacy a true delight.	3.6R	Get the seamless power of the 256-horsepower, 3.6-liter 6-cylinder SUBARU BOXER engine. It will power you through your day with the ease of a 5-speed automatic transmission with SPORTSHIFT® technology.
2.5i Limited	Ratchet up the luxury factor with the 2.5i Limited. Enjoy leather-trimmed seating, heated front seats, and the harman/kardon premium audio system. Dual-zone automatic climate control and standard Lineartronic™ CVT transmission are just examples of what sets the 2.5i Limited apart.	3.6R Premium	All the features of the 2.5i Premium, but with the 6-cylinder SUBARU BOXER engine. On top of a 5-speed automatic, you'll enjoy sporty 17" alloy wheels, and the comfort from having heated front seats standard.
2.5GT Premium	The performance of the Legacy becomes high performance. This 2.5GT features the 265-horsepower, turbocharged SUBARU BOXER® engine which is matched with the performance-oriented 6-speed manual transmission.	3.6R Limited	The flagship Legacy. Get all the performance and luxury advantages available. Combine leather-trimmed seating, dual-zone automatic climate control, and the immersive sounds of the harman/kardon premium audio system and make driving always a rewarding experience.

SYMMETRICAL ALL-WHEEL DRIVE

Continuous All-Wheel Drive	Models equipped with 6-speed manual transmissions utilize a viscous-type locking center differential with torque distribution normally configured at a 50/50-split front-to-rear. If wheel speed differs between front and rear axles, the system helps distribute power to the wheels with the most traction.
Active All-Wheel Drive	Models equipped with Lineartronic™ CVT utilize an electronically controlled variable transfer clutch to distribute power to where traction is needed. Sensors monitor parameters such as wheel slippage, throttle position and braking, to help determine torque distribution and direct it to the wheels with optimum traction.
Variable Torque Distribution (VTD) All-Wheel Drive	Models equipped with 5-speed automatic transmission utilize an electronically controlled variable transfer clutch in conjunction with a planetary-type center differential and a viscous-type limited-slip rear differential. Torque distribution is normally configured at a performance-oriented rear-wheel-biased 45/55-split front-to-rear. Sensors monitor parameters such as wheel slippage, throttle position and braking to help determine torque distribution and direct it to the wheels with optimum traction.

STABILITY AND TRACTION

Vehicle Dynamics Control (VDC)	VDC electronic stability control utilizes sensors which constantly monitor wheel speeds, steering angle, brake pressure, vehicle yaw rate and lateral g-forces. If VDC detects a difference between the driver's intended path and the one the vehicle is actually taking, VDC applies braking power and/or reduces engine torque to help correct vehicle path.
Traction Control System (TCS)	VDC also incorporates an all-wheel, all-speed traction control system which senses a loss of traction and applies braking force to the slipping wheel or wheels as necessary to maintain vehicle motion.

CHASSIS

Steering	Quick ratio engine-speed-sensing variable power-assisted rack-and-pinion. Turning circle: 36.8 feet.		
Suspension	4-wheel independent. Front: MacPherson strut type. Rear: Double-wishbone. Front and rear stabilizer bars.		
Brakes	4-wheel disc. 2.5i models: ventilated front. 2.5GT and 3.6R models: ventilated front and rear. 4-channel, 4-sensor ABS with Electronic Brake-force Distribution (EBD).		
Brake discs (front/rear)	11.6 inches/11.3 inches	12.4 inches/11.4 inches	
Brake Assist	When emergency braking is detected by how quickly the brake pedal is pressed, maximum brake pressure is immediately applied.

WARRANTIES

New Car Limited Warranty: 3 years or 36,000 miles, whichever comes first. **Powertrain Limited Warranty:** 5 years or 60,000 miles, whichever comes first. **Wear Item Limited Warranty:** 3 years or 36,000 miles, whichever comes first. Repairs to the following items will also be covered under Wear Item Limited Warranty: ● Brake Pads ● Wiper Blades ● Clutch Linings ● Transmitter Batteries **Rust Perforation Limited Warranty:** 5 years, unlimited mileage.

- Standard ○ Optional – Not available

1 2010 Subaru Legacy non-turbo 2.5-liter models achieving a Partial Zero Emission Vehicle (PZEV) rating by the California Air Resources Board are available in all 50 states. Only those registered in California, Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island and Vermont are eligible for the 15 years/150,000 miles emissions warranty. California PZEV-certified vehicles are considered the cleanest gasoline-powered vehicles because they meet California's most stringent tailpipe emissions standards for Super Ultra Low Emission Vehicles (SULEV). (Subaru offers other 2010 model emissions warranties for high-cost parts in only those states adopting the CA LEV Program.) 2 2010 EPA fuel economy estimates. Actual mileage may vary. 3 Optional as part of All-Weather Package. See equipment listing above. 4 Available as an accessory. See your dealer. Satellite radio hardware and required monthly subscription sold separately. 5 The Supplemental Restraint System (SRS) affords the driver and the front passenger additional protection in moderate to severe frontal and side-impact collisions and outboard 2nd-row passengers additional protection in moderate to severe side-impact collisions. This system provides supplemental protection only, and seatbelts must be worn in order to avoid injuries to out-of-position occupants upon airbag deployment and to provide the best combined protection in a serious accident. Children should always be properly restrained in one of the rear seats. See Owner's Manual for recommended seating position. 6 Requires optional moonroof. 7 With vehicle stopped and parking brake engaged.

All-weather Floor Mats

Custom-fitted, heavy-gauge protective mats. Helps protect vehicle's carpet from sand, dirt and moisture.

Not intended for use over top of carpeted floor mats.

Short-throw Shifter

Significantly reduces shift throw lengths for crisper shifts and sportier driving feel.

Fog Lights

Casts a low and wide beam of light to enhance vision in inclement weather.

Blueconnect

Bluetooth® wireless technology with advanced voice recognition allows you to make and receive calls, store phonebook information, and recognize up to seven different cell phones.

Some phones may not be compatible.
Details at subaru.com/bluetooth.

Trunk Tray

Helps protect trunk area from stains and dirt while providing a surface that helps reduce shifting of cargo while driving.

Puddle Lights

L.E.D. lights activate when vehicle doors are unlocked using the keyless entry. A soft glow illuminates the ground, aiding entry and exit of the vehicle.

Auto-dimming Mirror with Compass and HomeLink®

Mirror darkens when headlights are detected from behind the vehicle. Includes a compass and three HomeLink buttons that are programmable for most garage-door openers and other HomeLink-compatible devices.

Moonroof Air Deflector

Helps reduce wind noise and sun glare.

Hood Protector

Matches the contours of the hood while helping to protect from bug strikes and stone chips.

Remote Engine Starter

Allows vehicle to start by pushing a button from the convenience of home or the office (up to 400 feet away depending on obstructions) so that the vehicle's interior temperature is more comfortable upon entry. Remote confirms when vehicle engine has been started.

Trunk Spoiler

Sleek, low-profile design adds just the right amount of attitude to your Legacy. Comes pre-painted and ready to install.

Splash Guards

Helps protect the vehicle's paint finish from stones and road grime.

The earth isn't disposable. Neither is a Subaru.

The Legacy is designed for maximum enjoyment out on the road, but at Subaru, we put just as much emphasis on minimizing what we leave behind. First, we build vehicles for maximum **durability**, because more time spent on the road is less time in a landfill. It's why 94% of the vehicles we've built in the last 10 years are still on the road today.¹ We also work diligently to cut waste before the car ever rolls out of the factory. In 2004, Subaru of Indiana Automotive, Inc. (SIA) became the first manufacturing facility in the U.S. to reach **zero landfill status**—nothing from its manufacturing efforts ever goes into a landfill. Subaru facilities in Japan have achieved similar goals in reusing and recycling. And, because clear skies are just as important as clean landscapes, the Legacy has been recognized with Partial Zero Emission Vehicle—**PZEV**²—status and **SmartWay**^{®3} certification. It achieves such cleanliness and efficiency without the negative environmental impact required to manufacture many vehicles with battery-based drive systems, and without compromising performance and versatility.

Find out more about our efforts to
keep it cleaner and greener.
subaru.com/environment

This brochure was printed with vegetable-based inks and produced using a "Green Printing Process" and FSC standards. The Forest Stewardship Council (FSC) is an international organization that brings people together to find solutions which promote responsible stewardship of the world's forests and environments.

By producing this brochure in a green way rather than by traditional methods, we saved 78 trees preserved for the future; 226 lbs water-borne waste not created; 33,241 gallons wastewater flow saved; 3,678 lbs solid waste not generated; 7,242 lbs net greenhouse gases prevented; 55,428,415 BTUs energy not consumed.

1 Based on R. L. Polk & Co. registration data in the U.S. 1998 to 2008. 2 Available on 2010 Legacy models certified as Partial Zero Emission Vehicles (PZEV) that are sold and registered in California, Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island and Vermont. PZEV emissions warranty applies to only certain states. See your dealer for complete information on emissions and new car limited warranties. 3 For all 2009 Forester, Legacy and Outback non-turbo 2.5i-liter models certified as PZEV that are sold and registered in California and certain other states. Visit www.epa.gov/greenvehicles for more information.
